CALLAWAY CATTLE COMPANY

We would like to extend to you a special invitation to the 6th annual Afford-a-BULL Sale. This year's sale promises to be very special in many ways. First and foremost, it will be held at the farm in the Tyus community of Carroll County at MM/Glore Cattle Company's new sale facility.

Secondly, the bulls as well as the females will be displayed in grass lots or traps that will make viewing them prior to the sale much easier. While in years past the sale barn had its advantages, viewing the cattle in those wooden pens wasn't very easy. We think you will be very pleased with our new set-up.

We are excited about the bulls that we are bringing to the sale this year, we think they are the deepest group that we have ever offered. They have been hand fed a ration designed to gain 3 lbs. per day, not 4 or 5! Thus they are not overly fat. They are developed in large pastures with free choice hay. They are athletic and ready to cover a reasonable number of cows this breeding season.

The bulls have been ultrasound for ribeye area, marbling and backfat. They have been semen tested and passed a breeding soundness exam and are guaranteed to settle cows.

All the bulls in the sale exceed the breed averages in many traits. All EPDs and their percentile rankings will be printed in the catalog. You will see that many of these bulls rank in the top 5, 10, or 20% of all the bulls in their respective breed.

Between the two of us, we have been breeding cattle for almost a hundred years. Granted we started young and as a result cattle are a way of life. We wouldn't have it any other way.

We would like to express our thanks to our many valued customers over the years. It is very gratifying to get the good reports from you on how the bulls and females have worked for you. Thank you for your business, your confidence in our programs, and your friendship.

Make plans to join us on Friday to view the cattle at your leisure all day long. We will have the grill hot that evening and invite you to join us for supper at dusk. We'll have coffee and pastries first thing Saturday morning with lunch served at 11am followed by the sale at Noon. We hope to see you then.

Mike and Christy McCravy

TESTIMONIALS

We have used Callaway bulls from John for several years now. They have an excellent disposition and produce great calves. We are very satisfied customers.

Rodney and Melinda Johnson
Johnson's PMF
Tallapoosa, GA

We started buying from Callaway Cattle Co. in 2004 with a show steer and beifer for our daughter Mandy. I remember asking John how he sold his bulls but I was too late that year, they were all sold. When the next year rolled around I made sure I got one and have been using Callaway bulls ever since. Their cattle are functional with performance, longevity, eye appeal and balanced EPDs. John and Marcia stand behind their cattle and have always treated us like a member of the family.

Russ Elliott, Elliott Farms Cattle
Lizella, GA

We have purchased Bulls in this sale every year, I have been extremely pleased with their quality, they have been sound and we have had great conception rates, their docility has been an added benefit!

Clay Allen, Honeywood Farms
Barnesville, GA

These have been the most affordable Bulls that I have purchased due to their quality and longevity. Soundness, docility, along with performance and very good carcass traits are what you find at AffordaBULL!

Lil John Moseley, Moseley Cattle Auction
Blakely, GA

MM bulls are the kind of bulls needed to move forward in the cattle business. These bulls don't just produce heavy calves but heavy calves with quality pounds!

Trent and Justin Davis, Davis Cattle Co LLC
Sylvester, GA

6th Annual

AFFORDA **BULL** SALE

Saturday, November 17, 2018 at 12:00 PM

INFORMATION

SCHEDULE OF EVENTS

Before Thursday November 15 – Cattle can be seen at farms

Thursday, November 15 – Cattle available for viewing after 12 noon

Friday, November 16 – Cattle available for viewing all day

Saturday, November 17 8 am – Coffee & donuts

11 am – Lunch

12 NOON – SALE

SALE STAFF

Auctioneer: Chad “Cracker” Johnson 352-535-5320

Ringman: David Gazda 706-296-7846

ABSENTEE BIDDING

If you are unable to attend the sale but wish to bid, please contact us in advance or on one of the Sale Day Phones in order to register. We will connect you with a representative that will assist you in bidding live during the auction via telephone. If you are unable to be on the phone during the auction a bid may be left with any of the sale staff or either Mike, John or Wes. All bids left in advance will be handled with integrity.

HEALTH

Bulls have been vaccinated for IBR, BRSV, BVD, PI-3, Pasteurella, Leptospirosis, Vibrio and Clostridial diseases. All bulls have been wormed alternately with Dectomax and Valbazen and all are virgin bulls. Proper interstate health papers will be available at checkout.

FERTILITY

All bulls have been semen tested by Dr. Philip Wilson approximately 30 days prior to sale and will be accompanied with proper documentation.

TERMS AND CONDITIONS

All Bulls sell under the terms and conditions of each breed association. We guarantee all bulls sold in this sale to be fertile for the first breeding season if they have been given proper care. If a bull fails to settle cows during the first breeding season, we will provide a satisfactory replacement if one is available, or issue a credit, less salvage value toward next year's sale. If there is a problem we would ask to be notified as soon as possible. This is not a life insurance policy. We would suggest that proper care and nutrition be provided to these animals.

WINTER CARE

If you are not ready to take your bull(s) at sale time, we offer a Winter Care program for \$3.00/day. There will be no guarantee against injury or death other than we assure you that care of the bulls will be to the best of our ability. We recommend that you protect your investment with insurance. All bulls can be kept free of charge until December 1, 2018 with the daily charge beginning on this date.

LIABILITY

All persons attending the sale do so at their own risk. MM/Glore Cattle & Callaway Cattle Co. assume no liability for property damage or accidents that may occur.

INSURANCE

Insurance for your purchases will be available at the clerk's desk after the sale.

ANNOUNCEMENTS

Announcements made on sale day will take precedence over information printed in this catalog.

Thank You
for attending our
Annual Fall Production Sale!

SOME OF THE FEMALE HIGHLIGHTS

30 Fancy commercial heifers bred to MM and Callaway calving ease bulls and due to calve January thru March. Consigned by Honeywood Farms

**Clay Allen, Manager
Barnesville, GA**

6 Commercial cow/calf pairs. Calves were born in October and sired by MM and/or Callaway bulls purchased in 2017 sale.

Barnesville, GA**

Some Thoughts on Taking Care of Your New Bull

**Developed by: Dr. Francis L. Fluharty Professor and Head
Department of Animal and Dairy Science The University of Georgia
ffluhart@uga.edu**

- Be as calm and quiet as possible while loading, hauling, unloading, and moving him to his new location. This applies every time we work cattle, but is especially important in those instances where we are dealing with potentially highly-stressed cattle.
- **ASK WHAT THE BULL'S DIET WAS THE LAST FEW WEEKS.** Depending on how the animals had grown earlier in their life, they may have been fed a forage-based diet, or they may still be on a higher-grain diet. Why does this matter? It takes about 6 weeks for the digestive tract to expand after an animal is switched from a grain-based diet to a forage-based diet. When there is not enough time for the digestive tract to expand, such as buying a bull that's been fed a high-grain diet with limited forage, and turning it out for breeding within a couple of weeks after arrival, they lose a lot of weight quickly, because they are expending a lot of energy, and their digestive tract isn't large enough to allow for an adequate forage intake, so the bull loses weight, and sperm production decreases along with body condition score (BCS). Keep in mind that bulls lose body condition during the breeding season, so they should be a 5.5 to 6.0 at the beginning of the breeding season. Bulls that are too fat, however, are not athletic, and they have lower sperm counts and lower sperm motility.
- Young bulls are still growing. They don't reach their mature weight until 3 years of age. These young bulls require proper nutrition to keep sperm quantity and quality high. If you are providing any supplemental feed, don't use a 12% protein diet. Use a 14% to 16% protein diet to meet their requirements during the breeding season.
- During the breeding season, bulls will lose weight, and if their BCS goes below a 5, they may not get cows pregnant. Giving some supplemental energy in the form of a grain mix will allow them to maintain their BCS. If you grind corn, do not grind it fine. Coarser is better. You don't need to give them more than 1% of their body weight in grain, usually, once they are at a BCS of 5. This means that a bull weighing 1200 pounds wouldn't get more than 12 pounds of grain mix. Don't go from no grain straight to their final amount. Start low, at 5 to 6 pounds per day. Increase ½ pound every other day. Do not increase the amount of grain every day. Make no more than half-pound per day increases, and keep the amount offered the same for 2 days before the next half-pound intake.
- Finally, have a high-quality trace mineral program that's offered free-choice. Use loose minerals, and check your mineral feeders frequently to make sure that they aren't empty.

**“IF YOU’RE STRIVING FOR
COMMODITY BEEF, YOU’RE
LOSING GROUND.
GENEMAX HELPS US BUILD BETTER BEEF.”**

**DEVIN STEPHENS, COSTELLO’S RANCH, SOUTH-EASTERN
COMPLEMENTARY LOW-CALF BREEDING**

More efficiently building better-than-commodity beef starts with more informed selection and mating decisions. Visual appraisal doesn't tell the full story. To really know that you've selected the right replacement heifers use Genemax Advantage™ then use the learnings to buy complementary USDM™-tested bulls based on superior GE-EPDs.

A photograph of a farm at sunset. The sky is filled with orange and yellow clouds, with a bright glow on the horizon. In the foreground, the silhouettes of a barn and two silos are visible against the bright sky. The overall scene is peaceful and scenic.
